

Flamingo Maintenance Floating

DESCRIPTION

This product is formulated for flamingos during non-reproductive periods. Its composition meets the nutritional requirements of flamingos during this stage.

It contains Beta-carotene and Canthaxanthin as well as high levels of Omega-3 fatty acids.

FEEDING RECOMMENDATIONS

Flamingo Maintenance Floating is designed to constitute 100 % of the flamingo's diet during the non-reproductive period.

No vitamin or mineral supplements should be given to flamingos whose staple food is **Flamingo Maintenance Floating** formula.

Since it is a floating diet it is recommended to scatter it directly in shallow water or in the flamingo feeding pond. Renew feeder with fresh food and water daily.

Once the package is opened, store in an air-tight container in a cool, dry place.

DAILY INTAKE

Adult flamingos will consume between 20 and 35 g/kg of body weight per day.
