

Wet & Dry Microspheres® 20/10

DESCRIPTION

Wet&Dry Microspheres® 20/10 is a micro-extruded formula for psittacine birds. It can be offered throughout the year, but it is especially recommended during the breeding season, when it should be used as a moist base for **Psittacus Eggfood**. Hydrated **Microspheres** provide rapid hydration while maintaining their spherical shape intact. They are ideal to stimulate chick provisioning behaviour. They can also be offered dry. **Microspheres® 20/10** has been formulated as a complete diet.

FEEDING RECOMMENDATIONS

Microspheres can also be offered mixed with other foods, such as **Psittacus Eggfood** or chopped vegetables. Small psittacine birds fed with **Microspheres® 20/10** should have **Silex Grit** always available in a separate feeder to ensure the correct functioning of the gizzard. No vitamin or mineral supplements should be given to parrots whose staple diet is **Microspheres® 20/10**. Renew feeder with fresh food and water daily. Once the package is opened, store in an air-tight container in a cool, dry place.

PREPARATION

They are easily prepared: pour **Microspheres® 20/10** in a bowl, add water, let it stand for 15 min., break up the mixture and serve directly.

If **Microspheres® 20/10** are offered alone, the proportions are:

2 parts of **Microspheres® 20/10** + 1 part of water.

If **Microspheres® 20/10** are offered together with **Eggfood**, the proportions are:

2 parts of **Microspheres® 20/10** + 1.5-2 parts of water + 0.5-1 part of **Eggfood** (+ vegetables).

Eggfood should be added in More or less amount according to the texture of the final mix. Birds prefer a moist, loose and non-sticky texture.

DAILY INTAKE

Since it has been formulated as a complete food, there are no consumption restrictions and can be offered as often and as much as required. Environmental ambient temperature influences intake significantly. As a reference, dry **Microspheres® 20/10** intake is between 10 and 18 % of the bird's body weight (depending on the species).

NUTRITIONAL INFORMATION

COMPOSITION: Cereal grains and products derived thereof, oil seeds, oil fruits and products derived thereof, vegetable oils (crude rapeseed, refined palm), legume seeds and products derived thereof, dried whole egg, dried brewer's yeast, minerals and products derived thereof, inulin (*Cichorium intybus*), Mojave yucca.

ADDITIVES: Vitamins: 3a672a Vitamin A: 5,000 IU/kg; 3a671 Vitamin D3: 1,100 IU/kg; 3a700 Vitamin E: 250 mg/kg; 3a300 Vitamin C: 200 mg/kg; 3a710 Vitamin K3: 5 mg/kg; 3a820 Vitamin B1: 25 mg/kg; 3a825i Vitamin B2: 20 mg/kg; 3a831 Vitamin B6/Pyridoxine hydrochloride: 25 mg/kg; Vitamin B12/Cyanocobalamin: 100 µg/kg; 3a841 Calcium D-pantothenate: 20 mg/kg; 3a314 Niacin: 125 mg/kg; 3a316 Folic acid: 5 mg/kg; 3a880 Biotin: 800 µg/kg; 3a890 Choline chloride: 1,800 mg/kg; 3a160 (a) Beta-carotene: 15 mg/kg; 3a920 Betaine anhydrous: 200 mg/kg. **Trace elements:** 3b106 Iron (iron (II) chelate of amino acids hydrate): 25 mg/kg; 3b406 Copper (copper (II) chelate of amino acids hydrate): 1 mg/kg; 3b504 Manganese (manganese chelate of amino acids hydrate): 56 mg/kg; 3b606 Zinc (zinc chelate of amino acids hydrate): 19 mg/kg; 3b202 Iodine (calcium iodate anhydrous): 1 mg/kg; 3b814 Selenium (hydroxy-analogue of selenomethionine): 300 µg/kg. **Antioxidants:** 1b306 (ii) Extract of vegetable oils rich in tocopherols (rich in delta-tocopherol): 117 mg/kg; 1b304 Ascorbyl palmitate: 31 mg/kg. **Flavours:** *Rosmarinus officinalis* extract: 0.02 g/kg.

ANALYTICAL CONSTITUENTS: Moisture 8.0 %, Crude protein 20.0 %, Crude fat 10.0 %, Crude fibre 4.0 %, Crude ash 4.7 %.

PACKAGING

1 kg and 3 kg bags.
